## I Foreword

---

Dear Vehicle Owner:

Thank you very much for purchasing this car from BAIC Automobile SA (Pty) Ltd. (hereafter referred to as "BAIC SA"). To ensure that your car is kept in the best state to facilitate your safe and comfortable driving and to effectively safeguard your legitimate rights and interests, please carefully read the *Quality Warranty Manual* and the *User Manual* and follow the relevant provisions.

In the event of a vehicle fault within a certain period of time and mileage range in the normal use process (when used in accordance with the *Quality Warranty Manual*, *User Manual* and other accompanying documents), you will be entitled to the quality warranty services provided by BAIC SA. Usually, BAIC SA authorizes dealers/service centre to provide the highest quality warranty services for the products.

If you have any doubts concerning the use of your vehicle, you are welcome to call or visit our dealers/service center, With our technical expertise and original parts, we will do our best to provide you with the highest quality service.

**BAIC Automobile SA (Pty) Ltd.**

## II Pre-Delivery Inspection

---

### Pre-Delivery Inspection

Dear owner:

To ensure your satisfaction with the vehicle which you have purchased, we have carried out a pre-delivery inspection service of your vehicle in accordance with the relevant provisions of BAIC SA.

Inspector's signature:

Date of inspection:

Seal of BAIC SA dealer/service center:

Note 1: In order to be valid, upon the completion of the pre-delivery inspection, the Manual must be signed by the inspector and affixed with the seal of the BAIC SA dealer/service center;

Note 2: If you are not satisfied with the status of your vehicle when you receive it, please notify the relevant BAIC SA dealer/service center and permit the staff to re-check and adjust your vehicle.

### III Quality Warranty Services

---

#### 1. Scope of quality warranty

For those faults related to product design, raw materials, manufacturing & processing, and assembly processes (hereafter referred to as “Quality Problems”) that occur within a certain period of time and a mileage range, and which affect products which BAIC exports overseas in the process of normal use (in accordance with the *Quality Warranty Manual*, *User Manual* and other documents), subject to appraisal by itself or its authorized dealer/service center, BAIC SA will adopt necessary maintenance measures to eliminate these quality problems for owners free of charge. In other words, BAIC SA provides customers with free quality warranty services, including the man-hour and material expenses incurred in the repair and replacement of parts.

Under the precondition of meeting the technical requirements, BAIC SA dealers/service centers shall have the right to decide on a repair plan based on the specific vehicle situation, including repairing or replacing relevant parts.

This *Quality Warranty Manual* shall only apply to Segment **B40** products exported by BAIC SA.

The parts replaced under the scope of the quality warranty shall belong to **BAIC SA**.

### III Quality Warranty Services

---

#### 2. Term of quality warranty

Term of basic warranty: 60 months/120,000km (whichever comes first) for vehicles. For detailed information, refer to Table 1: Scope of Quality Warranty.

Note 1: The term of quality warranty is calculated starting from the date of purchase by the owner of the vehicle from a BAIC SA distributor/dealer (with the date specified on the purchase invoice as prevailing). If no valid purchase date can be ascertained, the term of quality warranty will be calculated starting from the date of purchase by the distributor/dealer (with the date specified on the purchase invoice released by BAIC SA).

Note 2: Where failure to fix an odometer fault or damage makes it impossible to determine the driven mileage, the cumulative driven mileage shall be calculated based on a daily mileage of 300km starting from the date of purchase. If there is a maintenance record, the cumulative driven mileage shall be calculated based on a daily mileage of 300km starting from the date of the record. If the odometer has been changed, the cumulative driven mileage shall be calculated with the addition of the readings shown on the previous odometer.

Note 3: Where any quality defect renders an original part provided by BAIC SA beyond normal use, the term of the quality warranty shall be calculated from the date of replacement (with the date specified on the repair invoice as prevailing).

### III Quality Warranty Services

Table 1: Scope of Quality Warranty:

Brand	Category	Name of Part	Term/Mileage
B40	Basic Warranty	Except Parts of Types A, B & C and Those Parts Described in Special Explanatory Notes	<b>60 months/ 120,000km</b>
	Type A	Air filter, air conditioner filter, engine oil filter, fuel filter, spark plug, brake pad, clutch plate, tires, bulb, wiper blade, fuse and general relay (without integrated control unit)	6 months/5,000km
	Type B	Battery, remote control battery, rubber products (e.g. seals, gaskets, O-rings, etc.) and plastic products (e.g. internal and external trims), not including Type A parts.	12 months/ no mileage limit
	Type C	Oil & liquids: Fuel, lubrication, coolant liquid, battery fluid, coolant, etc.	No quality warranty
<b>Special explanatory notes</b> The quality warranty is offered for quality problems of coloring, optical distortions, air bubbles and stratification on glass products which occur due to material or manufacturing process reasons within 6 months of purchase or within a driven mileage of 10,000km. But no quality warranty will be provided for other situations.			

#### 3. Quality warranty for paid parts

##### ★Quality warranty requirements for paid parts:

The part must be an original part provided by a **BAIC SA dealer/service center**;

### III Quality Warranty Services

---

★When applying for quality warranty for paid parts, the owner must submit the following materials:

- (1) The settlement form issued by a **BAIC SA dealer/service center** when the owner takes the part to the dealer/service center for paid repair or replacement;
- (2) The invoice issued by a **BAIC SA dealer/service center** when the owner takes the part to the dealer/service center for paid repair or replacement;

Note: When applying for quality warranty service for a paid part, the owner must keep the part damage in its original state.

#### 4. Scope of non-quality warranty (applicable to all vehicle parts)

##### (1) Items that exceed the term of quality warranty

- Items that exceed the term of quality warranty which is specified in the *Quality Warranty Manual*.

##### (2) Damage caused by improper repair or maintenance

- Damage caused due to failure to carry out regular maintenance or regular inspection as specified in the *Quality Warranty Manual* and *User Manual*;
- Damage caused due to failure to make regular maintenance or repair at a **BAIC SA dealer/service center**;
- Damage caused due to failure to use the original parts provided by BAIC SA;
- Damage caused due to failure to use the right model of engine oil, fuel, brake fluid, anti - freeze or other oil or liquid as specified in the *User Manual* (such as engine damage caused due to failure to use an engine oil of the right specification according

### III Quality Warranty Services

---

to the ambient temperature).

#### **(3) Damage caused by incorrect use, installation or refitting**

- Damage or extended damage caused due to improper use (such as overspending, overloading, wading depth in excess of the normal use range of vehicle), omissions, wrong handling or driving methods which are beyond what is specified in the *User Manual*;
- Vehicle is used under special conditions which are beyond the requirements of vehicle design (such as used in racing events, engineering, experiments, military, policing or anti-riot actions, etc.);
- Vehicle damage caused due to additional installation or refitting without permission from BAIC SA;
- Irrational odometer displays due to change of odometer readings as a result of dismantling of odometer or installation of additional device or other means.

### III Quality Warranty Services

---

#### **(4) Normal sound, vibration, etc.**

- Sound, vibrations, oil & grease exudation, color fading, stains, chromatic aberrations and other sensory aberrations which do not affect product quality, function or performance.

#### **(5) Damage cause by accidents or force majeure**

- Damage caused by force majeure (such as earthquake, typhoon, flood, etc.), chemical pollution, acid rain, traffic accidents, theft, hail, sand, flying rocks, dangerous road, fire or disasters (war, riots, etc.), man-made intentional damage and damage caused by external factors, as well as damage caused by secondary damage arising from these disasters.

#### **(6) Normal wear & tear and maintenance**

- Normal wear wastage or aging, parts needed for maintenance, repair items, and various kinds of engine oil, brake fluid, anti-freeze, lubricant, refrigerant, additives, etc.;
- Normal wear to interior trims, seat skins, etc., and coloring, aging, etc. of plated parts, paint coatings and rubber members resulting from natural wear and tear in the use process;
- Minor deformation of brake disc, brake jitter, etc. resulting from use problems, driving environment or other factors.

#### **(7) Damage caused by failure to carry out timely overhaul when vehicle has fault or improper handling**

### III Quality Warranty Services

---

#### (8) Indirect expenses

- Any accidental or derived losses resulting from inability of normal driving of vehicle, such as time loss, parking loss, vehicle rental expenses, towage (by a third party not authorized by BAIC) fee, board & lodging, communication, fuel, travel, storage of articles, or mediation costs, personal or business property damage, loss of income and other accessory loses.

#### 5. Special Tips: Quality warranty for three-way catalytic converter

The following situations do not fall within the scope of quality warranty:

- (1) Damage or breakdown resulting from failure to correct use the vehicle or fuel in accordance with the provisions of the *User Manual*;
- (2) Damage or breakdown resulting from failure to undertake periodic maintenance in accordance with the repair the maintenance & repair specifications of the *User Manual*.

#### 6. For the quality warranty of owner products, this *Quality Warranty Manual* shall prevail.

- (1) BAIC SA and its dealers/service centers shall comply with the contents of the *Quality Warranty Manual*.
- (2) Unless otherwise specified by **BAIC SA** or in the local laws and regulations, no **BAIC SA dealer/service center** or any of their employees shall have the right to alter or modify the contents of the *Quality Warranty Manual* without permission.

### III Quality Warranty Services

---

#### **7. Term of quality warranty of parts replaced within their term of warranty**

The term of quality warranty of those parts which are replaced or repaired free of charge due to quality problems within the term of quality warranty after the owner's purchase of vehicle (those parts must be the original parts provided by BAIC SA) shall not exceed the term of quality warranty of the vehicle.

#### **8. Provision of quality warranty services**

When your vehicle has a fault within the term of quality warranty, please make sure to take it to the nearest **BAIC SA dealer/service center** for checks. You will then need to present your **Quality Warranty Manual** as the voucher for quality warranty services.

Please be sure to undertake regular maintenance in accordance with the provisions of the **Quality Warranty Manual** and the *User Manual*. Any damage caused as a result of failure to undertake regular maintenance or maintenance, or improper maintenance shall not fall within the scope of quality warranty offered by BAIC SA.

#### **9. Keeping of Quality Warranty Manual**

The **Quality Warranty Manual** is an important document to show your entitlement to quality warranty services and repair services. Please keep it properly and prevent its loss or soiling. If you resell your vehicle, please be sure to hand over the **Quality Warranty Manual** to the new owner and contact the **BAIC SA dealer/service center** at the same time to fill out an owner information alteration sheet.

### III Quality Warranty Services

Owner Information Alteration Sheet (to be filled out by **BAIC SA dealer/service center**):

Employer of Previous Owner				Name of Previous Owner	
Date of Issue of Previous Vehicle Plate		Previous Vehicle Plate Number		Initial Vehicle Purchase Date	
Address of Previous Owner				Previous Owner's Phone Number	
Employer of Current Owner				Name of Current Owner	
Current Owner's Address				Post Code	
Current Owner's Phone Number		Area Code		Mobile Phone Number	
Date of Registration of Alteration	Vehicle Plate Number After Alteration	Model	VIN		Seal of BAIC SA dealer/service center
Reason for Alteration	<input type="checkbox"/> Alteration of owner <input type="checkbox"/> Alteration of owner's address or contact information <input type="checkbox"/> Re-issuance of User Manual <input type="checkbox"/> Others				
Registrant		Registration Time		Driven Mileage at Time of Alteration	

**Note:** Upon discovering any alteration of owner information (such as change of vehicle ownership) during repair or maintenance, the BAIC SA dealer/service center should fill out this sheet and update the relevant information in the system.

You hereby consent to BAIC Automobile SA and its affiliates (including authorized dealers and workshops) to obtain, process and record your information legally as per the requirements under the Protection of Personal Information Act 4 of 2013.

## V Maintenance and Repair Record

---

### 1. Vehicle maintenance requirements

The *User Manual* is the basis for you to learn about and drive your vehicle correctly. Regular and normal maintenance will help to keep your vehicle in the best state in the long term. It is very necessary for you to perform regular maintenance of your vehicle in accordance with the requirements of the *User Manual* and the **Quality Warranty Manual**.

Note: Correct vehicle maintenance is essential for ensuring safe driving and reducing vehicle repair costs. The maintenance specifications of the *User Manual* are the minimum inspection and maintenance items which you undertake.

To ensure that your vehicle is kept in the best condition possible, it is recommended that you should carry out vehicle maintenance in accordance with the maintenance specifications of the “Regular Maintenance” section of the *User Manual* and based on the use conditions, environment and state of your vehicle (for details, refer to the *User Manual*).

- (1) When applying for maintenance services for your vehicle, you need to present your **Quality Warranty Manual**.
- (2) When the vehicle you have purchased has been driven for 3000km/3 months (whichever comes first), you must go to a **BAIC SA dealer/service center** for the first maintenance check.
- (3) After your vehicle undergoes its first maintenance check, please follow the maintenance

## V Maintenance and Repair Record

---

intervals as specified in the list of vehicle maintenance items (see next page) and go to a **BAIC SA dealer/service center** for regular maintenance.

- (4) Every time you go to a **BAIC SA dealer/service center** for regular maintenance, the **BAIC SA dealer/service center** will fill out the relevant vouchers and ask you to sign them.
- (5) Failure to carry out regular maintenance or failure to undertake regular maintenance at a **BAIC SA dealer/service center** within the specified time means that you are not entitled to the quality warranty services for the relevant items of regular maintenance and any fault which may arise as a result.
- (6) Please use engine oil, fuel, brake fluid, anti-freeze, etc., that meets the requirements of your vehicle, in strict accordance with the provisions of the *User Manual*.
- (7) All the material and man-hour expenses involved in vehicle maintenance shall be covered by the owner.
- (8) In the event of inconsistency between the regular maintenance contents of the **Quality Warranty Manual** and the provisions of the *User Manual*, the provisions of the *User Manual* shall prevail.

## V Maintenance and Repair Record

### 2、Maintenance Specifications

The maintenance specifications of this car are divided into two parts. Please regularly carry out corresponding maintenance based on the specifications.

"Type A Maintenance Specifications" prescribes for the maintenance interval in normal use conditions. But If you often use your vehicle under the following

situations, you should make maintenance and repair in accordance with "Type B Maintenance Specifications":

- Make frequent short-distance driving for no more than 8km;
- Often drive in dusty environments;
- Often use your car as a towing vehicle;
- Place it in idle over long period of time;
- Drive at high speed in a >32 °C environment for over 50% of the time;
- Drive off-road;
- Drive in deserts.

In addition, when you stop your car and fuel it each time, please,

- Check the engine oil level and add fuel as needed;
  - Check the windshield cleaning agent and add as needed.
- Each month, perform the following maintenance and checks:
- Check tire pressure and wear;

- Check voltage, clean battery poles, and make tightening if necessary;
- Check the coolant, brake fluid and power steering fluid levels, and make replenishment as needed;
- Check all the lights and electric appliances of the car to see if they work normally. In the event of any abnormality, make immediate repair.

Every time when you replace the engine oil,

- Check the exhaust system;
- Check the brake fluid pipes;
- Check the engine coolant surface, pipeline and clamps;
- Check whether there is fuel leakage on the transmission and splitter surfaces;

- Lubricate the slide spline as needed;
- After off-road driving, fully check the vehicle bottom and tighten loose component.

When adding or replacing the rear axle gear oil,

- Use the same type and amount of gear oil for rear axle assemblies with a limited slip differential and rear axle assemblies with an ordinary differential.

**Caution**

Whenever there is component failure or doubt about whether a component does not work, be sure to check and maintain the vehicle and keep the repair records.

## V Maintenance and Repair Record
